# ING. RODOLFO BORJA

## ABOUT ME

Software Developer with over 7 years of experience. Proven ability to perform testing and performance optimization, implement software updates, and develop new features. Seeking to contribute to a dynamic and growing company.

## WORK EXPERIENCE

### Senior Developer / Full Stack

Kruger Corp. | May 2022 – Present

- Lead and develop automation and software solutions across RPA, web, and mobile platforms.
- RPA Automation (Client: Pacasmayo):
- Automated invoice registration processes in SAP.
- Built validation systems for payment receipts and attached documents.
- Web Development (React, Node.js, Angular.js):
- Frontend Team Leader for multiple projects including Flow (Amdocs), Pago Plus, Radar System, Actuarial System, and Oxify.
- Designed scalable frontend architectures and integrated backend services.
- Mobile Development (Flutter, React Native):
- Developed cross-platform apps such as TODO OK, Konnex, and OCP Connect for internal and client operations.

### Semi-Senior Developer

Sipecom S.A. | Nov 2021 – May 2022

- Client: Grupo Difare – Project: Prisma
- Developed and maintained web applications using C#, ASP.NET, Angular.js, and SQL Server.
- Built and optimized web services and supplier agreement management systems.

### Technological Development Engineer

Banco del Pacífico | Mar 2020 – Nov 2021

- Designed and implemented RPA automation processes using UiPath Studio and Automation Anywhere.
- Automated key workflows for fraud detection, refunds, and claims management.

# LANGUAGES

**Spanish:** Native

**English:** Intermediate

## Semi-Senior Developer C#

Sipecom S.A. | Aug 2019 – Mar 2020

- Client: Junta de Beneficencia – Project: Prisma
- Developed web systems using C#, Angular.js, and SQL Server stored procedures.
- Delivered modules for household management, payroll and payments, and inventory transfers.

## Junior Developer / Project Leader

Righttek S.A. | Jan 2017 – Jul 2019

- Led small development teams and contributed to backend and mobile projects.
- Requirement Management System:
  - Developed MT, RT, and SEG modules using C# ASP.NET.
- Mobile Development (Xamarin):
  - Built modules for BDP Intranet App, Telephone Directory, Cafeteria, and Microcredit systems.
